

How You Are Helping

We have had the opportunity to spread awareness, hold lectures, distribute literature, and talk with community members regarding their options when it comes to obtaining proper health care. We have also participated in events in which we offered free preventative ultrasound screenings to the indigent and underserved in our area. Assessing risks for diseases and enabling people to seek proper medical attention is important, especially in an economy when so few people can afford to properly address critical health issues. Your dollars will enable us to organize more screening events throughout the metro-Philadelphia area.

Additionally, to increase the number of ultrasound technologists both qualified and available to participate in our healthcare screenings as well as meet the growing employment demands of area medical facilities, we recently founded Allied Health Academy (www.alliedhealthacademy.org). Allied Health Academy will provide the healthcare industry with accurate and dependable medical professionals and its curriculum requires a community service component through the Tri-State Health Foundation.

About Us

Tri-State Health Foundation, Inc. was founded in 2011 by our current Board President, Louisa Kipervas, with the sole intent to help those who cannot afford proper medical care. With the help of volunteer translators, we have performed screenings in local Vietnamese and Russian neighborhoods.. We partnered with Physicians Mobile X-Ray in Harrisburg to offer on-site services at several nursing homes. We have conducted screenings at gyms like the Philadelphia Sports Club to raise awareness that stroke and heart issues do not discriminate according to age or fitness level. The greatest reason for no access to ultrasound screenings is the inability to afford care. We partnered with Catholic Social Services to offer free screening for their clients at their facility.

Tri State Health Foundation is a 501(c)(3) nonprofit organization. Your Donation is tax deductible. EIN: 27-3282611

Advertising at the Venue

All sponsors will appear in our Event Program, distributed to all attendees. The Golden Gates catering facility is optimized for charitable events.

Entryway banners available for Diamond-level sponsors

Balcony space available for Platinum and Diamond-level sponsors

Screen advertising available for Gold, Platinum, and Diamond-level sponsors

Our Donors & Guests

We anticipate approximately four hundred guests at this elegant costume-optional formal event (traditional masquerade ball masks will be provided for those who attend in evening attire only). Among attendees expected are Phillies pitcher Adam Morgan, former Pennsylvania governor Ed Rendell, several professional hockey players, and local elected officials who are close friends or relatives of Board members. Philadelphia-area business leaders and healthcare professionals will comprise a majority of the event participants. Ticket price is \$300 per couple. There will be a silent auction of a wide array of items donated from the Philadelphia Eagles, Walt Disney resorts, and several other companies. We have booked an emcee, both a live band and a DJ, and prizes will be awarded for best costume in five categories. Although we are negotiating to receive donated services, we will alternately hire a contortionist, aerial performer, and two acrobats to entertain guests. Volunteers and TSHF staff will assist in hosting duties.
